## PLEASE read the information below regarding your perfect binding estimate

\*\* Maximum spine grind is 1/8". Please allow minimum 1/16" trim all 4 sides of books for binding and final trims \*\*

\*\* All Aqueous and varnish coatings, ink and/or toner MUST be knocked-out on the inside of the cover at the spine + 1/8" out for the side glue to insure your book and the cover will bond and bind properly \*\*

We must be notified immediately if your covers are printed on the Xerox IGEN. Set-up and process are different for these printed covers and we do not guarantee the covers will adhere to your books if we are not notified.

**Our perfect binding glue is an aggressive Hot Melt product. We do not PUR glue**
